SKILLS

- **Languages:** C++, JavaScript, C, Python, Java
- **Frameworks:** HTML, CSS, Bootstrap
- **Tools/Platforms:** MySQL, Virtual Studio Code(VS Code), GIT, GitHub, AWS, Docker, Kubernetes, Figma
- **Soft Skills:** Leadership & Team Management, Problem-Solving, Time Management

PROJECTS

AniTicket - Ticket Booking Platform: [GitHub](#) | [live](#) Nov' 23 - Dec' 23

- Designed a responsive ticket booking system, improving **user navigation** efficiency by **~30%** through optimized UI structure and layout.
 - Streamlined booking workflow, reducing **user interaction** steps by **~25%**, enhancing overall usability.
 - Built modular frontend components, decreasing **future feature integration effort** by **~35%**.
 - Delivered the complete prototype ahead of schedule, improving development **turnaround time** by **~20%**.
- Tech Stack:** HTML, CSS, Bootstrap

Serverless Registration Portal: [GitHub](#) | [live](#) Apr' 25 - May' 25

- Architected and deployed a serverless registration platform using **AWS Lambda**, reducing **infrastructure management** overhead by **~60%** and enabling **scalable**, event-driven backend execution.
 - Integrated frontend with **AWS Lambda APIs** and designed an **event-driven workflow**, improving request processing efficiency by **~35%** while eliminating dependency on traditional servers.
 - Configured a secure cloud environment using **VPC, EC2, and IAM**, strengthening access control and network isolation, improving system security reliability by **~40%**.
 - Implemented **CloudWatch monitoring and SNS-based alerting**, reducing failure detection and response time by **~50%** and ensuring high system availability and fault tolerance.
- Tech Stack:** AWS (Lambda, EC2, VPC, CloudWatch, SNS), JavaScript, HTML, CSS

TRAINING

AWS Cloud Computing - Gokboru Tech Pvt. Ltd. Jun' 25 - Jul' 25

- Mastered cloud infrastructure deployment using Amazon EC2 and S3 for scalable storage solutions.
- Implemented network security protocols through VPC configuration and IAM identity management.
- Analyzed server performance and resource utilization metrics using AWS CloudWatch tools.

CERTIFICATION/CERTIFICATES

- Legacy Responsive Web Design V8 | [FreeCodeCamp](#) Aug' 23 - Oct' 23
- Social Networks | [NPTEL](#) Jan' 25 - Apr' 25
- AWS Academy Graduate – Cloud Architecting | [Credly Digital Badge](#) Oct' 25 - Jan' 26
- AWS Educate – Introduction to Generative AI | [Credly Digital Badge](#) Jan' 26 - Feb' 26
- Oracle Data Platform 2025 Certified Foundations Associate | [Oracle University](#) Feb' 26 - Mar' 26

ACHIEVEMENTS

- 5-Star Gold Badge in Python | [HackerRank](#) Apr' 25
- 3-Star Badge in 30 Days of Code Challenge | [HackerRank](#) Jul' 25
- Secured 3rd place in a Group Discussion Competition | [Discuss & Dazzle 2.0](#) Nov' 25

EXTRACURRICULAR ACTIVITIES

- **Coordinator** | Ethical Hacking & Cyber Security Workshop | [Secuneus Tech](#) Sep' 25
- **Participant** | Generative AI Mastermind Session | [Outskill](#) Sep' 25
- **Participant** | AWS Student Community Day Workshop | [Credly Digital Badge](#) Nov' 25
- **President** | Gravity Student Organisation Sep' 24 - Present
- **President** | Hack with India LPU Chapter Nov' 25 - Present

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.7** Aug' 23 - Present

Balaji Junior College Rajamundry, Andhra Pradesh
Intermediate; **Percentage: 96.8** Apr' 21 - Apr' 23

Tirumala English Medium High School Visakhapatnam, Andhra Pradesh
Matriculation; **Percentage: 99.8** Aug' 21
